Including Plots

You can also embed plots, for example:

Note that the `echo = FALSE` parameter was added to the code chunk to prevent printing of the R code that generated the plot.

Insert tables

```
knitr::kable(head(cars),
  caption = "Top six rows of Cars Dataset")
```

Table 1: Top six rows of Cars Dataset

speed	dist
4	2
4	10
7	4
7	22
8	16
9	10

Insert a equation

$$Y = \beta_0 + \beta_1 x$$

Insert Images

Insert notes with footnotes

Here is footnote reference ¹ and another ²

Here is an inline footnote³

¹Here is the footnote

²Here is one with multiple blocks.

³Inline notes are much easier because you don't have to pick an identifier and move down to type the note
